
Dear,

Allow me to start by introducing myself and talk a bit about why I would be an excellent fit as a Front-End Developer. Majorly I have Four years of experience in Front End Development. During my career I honed my CSS3, Bootstrap, jQuery, JavaScript, React.js, Vue.js and HTML5 skills, as well as my knowledge of mobile, User Experience and responsive design.

My professional experience includes bringing the wireframes of the UX designer to life through HTML5 and CSS3, as well as collaborating with Back End Developers to create a stellar finished product. I think my skills and experience makes me a great fit for your company.

Here are some of my most relevant qualifications and accomplishments:

- Four years of experience as a Front-End Developer.
- Crafted various website features using ReactJS, jQuery, HTML5 and CSS3.
- Worked as backend developer and developed robust API's.
- Developed and Implemented project scope and timelines based on the design-develop-deploy process.
- Collaborated with UX designers and Back End Developers and ensured coherence between all parties.
- Tested feature prototypes for bugs and user experience
- Participated in daily scrums and bi-weekly meetings.
